

IN THE SPECIFICATION

Paragraph beginning at page 3, line 27 (amended).

This object is achieved by ~~means of adhesive sheet strips as described~~  
~~in more detail in the claims. Attention is drawn expressly to the claims in order to~~  
~~avoid repetition~~ providing the self-adhesive strips with a grip tab having a static  
frictional force  $F_s$ , as measured in accordance with DIN 53375, of at least 170 cN.
